

C-u-Series

Combined with the use of specific adapters, either for C-Mount or M12, an inexpensive Auto Focus microscope can be built. It uses the same FPC cable as the C-S series, and therefore requires the same FPC connectors.

Ordering Information:

- C-u-25H0-075-43: inverted C-S-25H0-075

Specifications:

Typical performance at 25°C

Magnification	Extension Ring		
	X2	X4	X5
Working distance	7 mm	6 mm	5 mm
Focusing range	± 0.85 mm	± 0.7 mm	± 0.65 mm
Mechanical Back Focal	15 mm	22 mm	37 mm

C-u Microscopy Set

Allows customers to achieve various magnifications, both for M12 and C-Mount cameras. This set is delivered with the C-Microscopy development kit.

- 1 microscope spacer
- 1 set of M12 and C-Mount adapters allowing X2, X3 and X5 magnifications
- 1 locking nut for M12 adapters
